

# Albuquerque Bernalillo County Water Utility Authority

## San Juan-Chama DRINKING WATER PROJECT

# Construction Ahead

### It's Going to Be a Busy Year for the San Juan-Chama Drinking Water Project

This year – 2006 — will be the busiest of all four years of construction for the San Juan-Chama Drinking Water Project, with nine projects currently underway, and construction scheduled to begin soon on six additional projects.

The San Juan-Chama Drinking Water Project will supply up to 70% of the Albuquerque Metropolitan Area's drinking water by diverting surface water from the Rio Grande, transporting the "raw" water to a new water treatment plant currently under construction, treating the water to purify it for drinking and distributing the water to customers in the Albuquerque Bernalillo County Water Utility Authority's service area. Construction on the project began in 2004 and is expected to be completed in 2008.

### Will Construction Impact Roads?

Because many of the projects involve installation of large-diameter pipeline along roads, there will be some lane closures and restrictions. For up-to-date information, visit: [www.sjcdinkingwater.org](http://www.sjcdinkingwater.org) and click on the Maps/Traffic Impacts button, or visit [www.cabq.gov](http://www.cabq.gov) and open the "I Want to See – Road Construction Sites" window.

Below is a brief description of major roads affected by each project.

### 2006 CONSTRUCTION AT A GLANCE

#### COMPLETED

■ Don Pipeline – South Segment . . . . .November 2005

#### NEARLY COMPLETED

*Anticipated  
Completion Date*

■ College Pipeline-Middle Segment . . . . .February 2006

■ Westside Pipeline . . . . .March 2006

#### UNDER CONSTRUCTION NOW

*Anticipated  
Completion Date*

■ Diversion Dam/Fish Intake Structure . . . . .April 2006

■ Eastside Pipeline . . . . .May 2006

■ Rio Grande Crossing Pipeline . . . . .May 2006

■ East Valley Pipeline . . . . .November 2006

■ West Valley Pipeline . . . . .December 2006

■ Raw Water Pipeline #1

From Diversion Dam . . . . .December 2006

■ Water Treatment Plant . . . . .March 2008

#### CONSTRUCTION SCHEDULED TO BEGIN SOON

*Anticipated  
Start Date*

■ Leyendecker Pipeline . . . . .January 2006

■ North Segment Pipeline . . . . .April 2006

■ Raw Water Pipeline #2

to Treatment Plant . . . . .May 2006

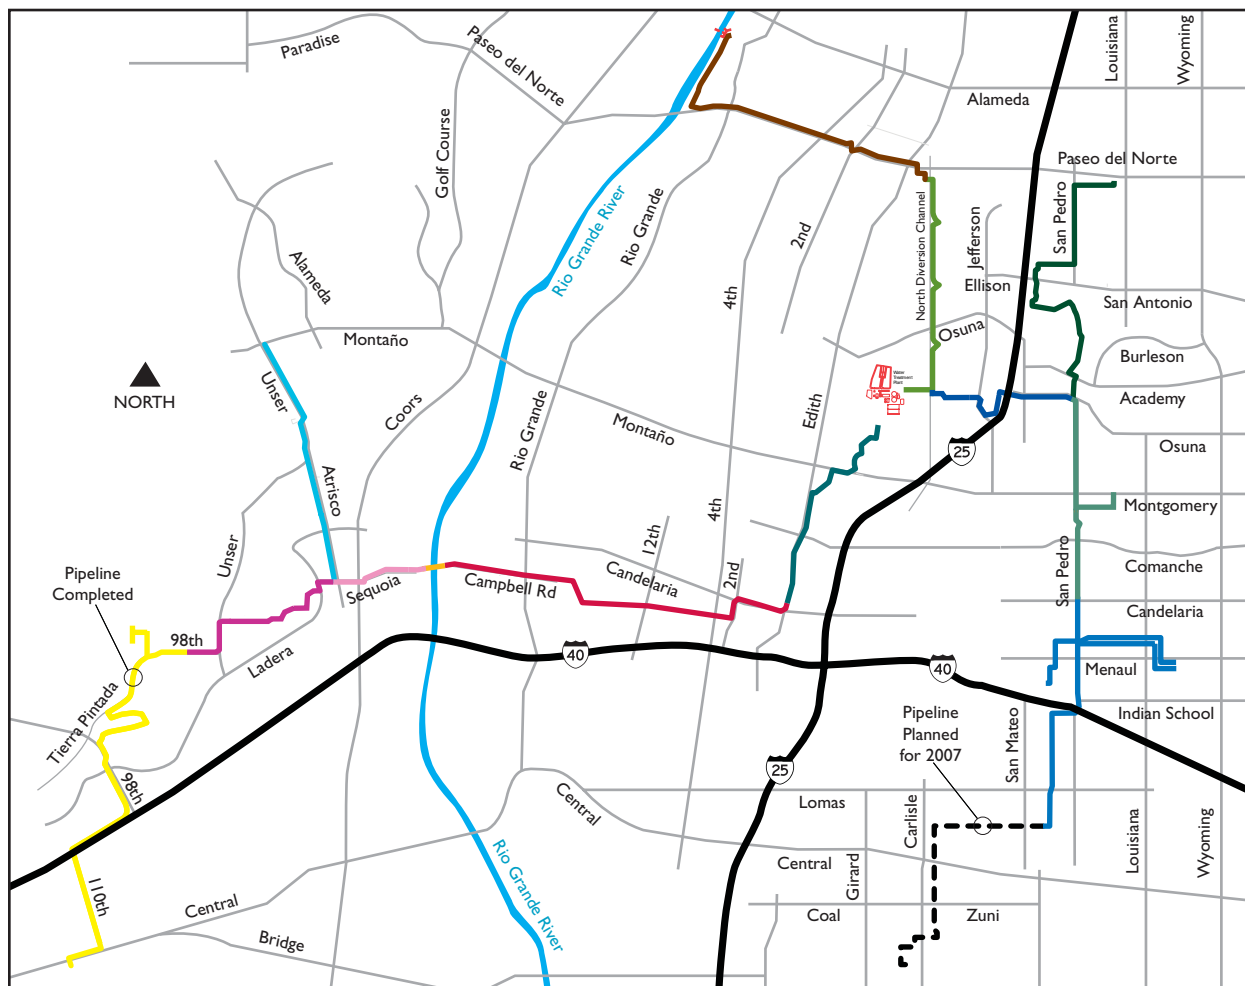

■ Charles Wells Pipeline . . . . .June 2006

■ Coronado Pipeline . . . . .June 2006

■ Raw Water Pump Station . . . . .July 2006

*Note: Dates are subject to change without notice.*

## PIPELINE CONSTRUCTION AREAS

### Northeast Albuquerque Area

**Charles Wells Pipeline** – Major streets to be affected include Alvarado Dr. NE, Haines Ave. NE, San Pedro Dr. NE, Phoenix Ave. NE, Chama St. NE and Prospect Ave. NE.

**Coronado Pipeline** – Major streets to be affected include Academy Blvd. NE, Forest Hills Dr. NE, McKinney Dr. NE, Northbound I-25 frontage road, Del Rey Ave. NE, San Pedro Dr. NE and Palomas Ave. NE.

**Eastside Pipeline** – Osuna Road between the northbound I-25 frontage road and Seagull Lane currently has construction activity in the eastbound (south) lane with traffic shifted to the westbound (north) lane and one lane of traffic in each direction. Various detours will be in place as needed. Construction will continue on Osuna, heading east to the Arroyo del Oso Golf Course.

**East Valley Pipeline** – Currently, work is taking place on the east (northbound) lane of Edith Blvd. NE between Griegos Rd. NW/Comanche Rd. NE and Carmony Lane NE with all traffic lanes open on Edith Blvd. This project will affect traffic on Candelaria Rd. NE, 2nd St. NW, Montano Rd. NW, Renaissance Blvd. NE, Mission Rd. NE and Union Way Rd. NE.

**Leyendecker Pipeline** – Work is scheduled to begin in late January or early February on the east side of San Pedro Dr. NE south of Comanche Rd. NE. Only southbound traffic will be permitted during this phase of construction. This project will affect traffic on San Pedro Dr. NE, Osuna Rd. NE, Hendrix Rd. NE and Andrew Dr. NE.

**Raw Water Pipeline #2 to Water Treatment Plant** – Major streets to be affected by this project include Osuna Rd. NE, Chappell Rd. NE and Singer Blvd. NE.

**Water Treatment Plant** – A \$160 million, state-of-the-art, water treatment plant is under construction in the Renaissance Center near Montano Rd. NW and Chappell Rd. NE. Roads to be affected by this project include Mission Ave. NE, Chappell Rd. NE and Renaissance Blvd. NE.

### Northwest Albuquerque Area

**Diversion Dam/Fish Intake Structure** – No road impacts are expected. However, the Main Levee Trail east of the Rio Grande River between Alameda Blvd. and Paseo del Norte may have occasional restrictions.

**Raw Water Pipeline #1 from the Diversion Dam** – Currently, construction is taking place east of the Rio Grande River along the Albuquerque Drain and just north of Paseo del Norte between Rio Grande Blvd. and the Drain. In addition to Paseo del Norte and Rio Grande, this project will also impact Edith Blvd. NE, 4th St. NW, the BNSF Mainline Railroad Track and 2nd St. NW.

**West Valley Pipeline** – Currently, construction is taking place along the Alameda Drain (near Matthew Ave. NW) from 12th Street heading west. Also, an underground tunnel is being completed along the Griegos Drain. Major streets to be affected by this project include Campbell Rd. NW, Rio Grande Blvd. NW, 12th St. NW at the Alameda Drain, 4th St. NW at the Alameda Drain and Matthew Ave. NW at the Griegos Drain.

### Westside Albuquerque Area

**College Pipeline-Middle Segment** – No road impacts are anticipated as this project nears completion.

**North Segment Pipeline** – Major streets to be affected by this project are Atrisco Dr. SW, Unser Blvd. NW, Western Trail NW, Dellyne Ave. NE and Montano Rd. NW.

**Rio Grande Crossing Pipeline** – While the majority of construction activity for this pipeline is now in the Rio Grande River, Campbell Rd. just east of the river may have occasional restrictions as work is being performed in the Bosque. Traffic may also be affected on Sequoia Rd. west of the river from Sequoia Court to Alamogordo Dr. NW.

**Westside Pipeline** – Currently, work is taking place in the two southbound lanes on Ladera Rd. west of Sequoia Rd. Traffic on Ladera will remain in the northbound lanes, with one lane open in each direction, until the end of the project, scheduled in late February or early March 2006. This project has also affected traffic on Sequoia Rd. east of Coors to the intersection of Vista Grande/Alamogordo and Sequoia Rd.

### ABCWUA BOARD MEMBERS

Alan B. Armijo, *Chair*  
Martin Heinrich, *Vice-Chair*  
Martin J. Chávez, *Mayor*  
Michael J. Cadigan, *City Councilor*  
Isaac Benton, *City Councilor*  
Teresa Cordova, *County Commissioner*  
Deanna A. Archuleta Loeser, *County Commissioner*  
Pablo Rael, *Trustee*
